

Select database:  
(dropdown menu)

1. fold simulated
2. flickering timeseries
3. climate record

A. Indicators trend analysis

- rolling window size (in %)

0 \_\_\_\_\_ 100 (@Leo scrollbar)

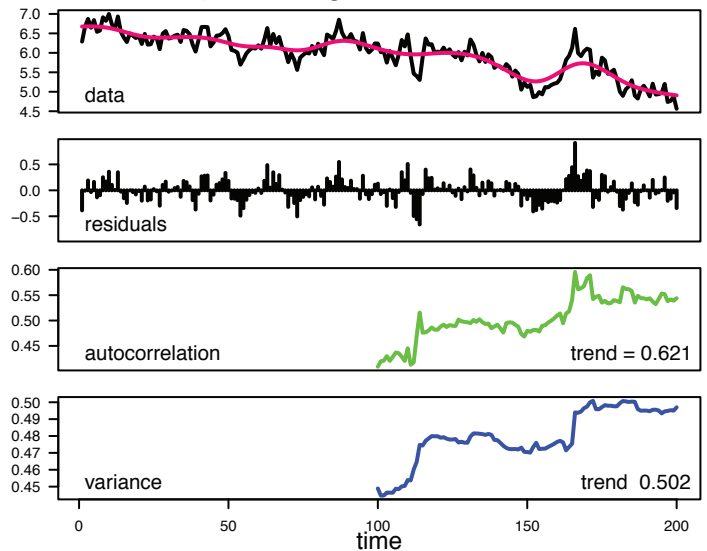

- choose filtering method:

no filtering

linear (@Leo dropdown menu)

gaussian

Generic Early-Warnings: Autocorrelation – Variance

B. Trend Sensitivity analysis:

- choose filtering method:

no filtering

linear (@Leo dropdown menu)

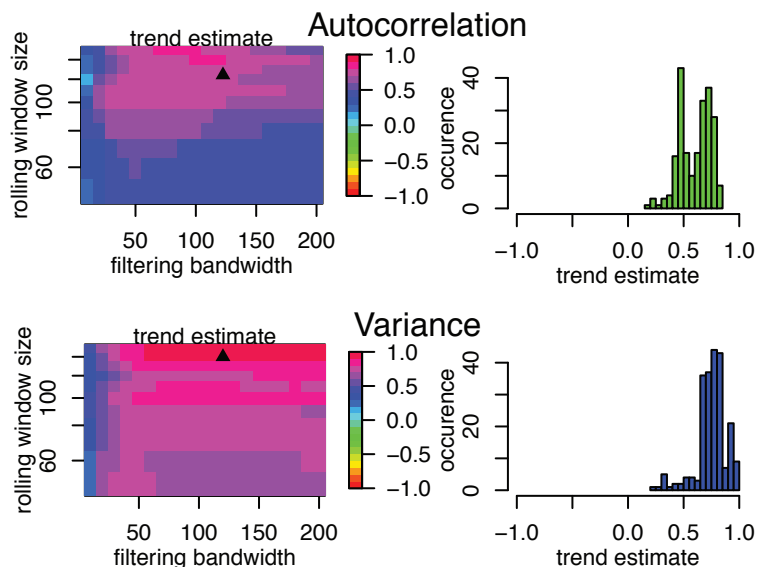

gaussian

- choose rolling window size

5 \_\_\_\_\_ 50 (@Leo scrollbar)

- bandwidth [only for gaussian filtering]

5 \_\_\_\_\_ 200 (@Leo scrollbar)

4

C. Potential analysis

- cutoff level (from 0.01 to 0.5) ☐

(@Leo to fill in value)
